

KAĞAN KURUBAŞ Software Engineer · Game Developer

Bursa, Türkiye · nurikagankurubas@gmail.com · kagankurubas.github.io · github.com/kagankurubas · LinkedIn

PROFILE

Computer Engineer and software developer building end-to-end products across mobile, AI-integrated systems, and games. Shipped a local-first Flutter application, built MCP-based automation infrastructure in Python, and contributed professionally to Unity mobile game development. Currently developing independent software and game projects.

TECHNICAL SKILLS

Languages Python · C# · Dart · C++ · JavaScript

Development Flutter · Unity · FastAPI · MCP / FastMCP · Pydantic

Architecture Hive · Local-First Architecture · REST APIs · OAuth 2.0

Testing & Tools Pytest · Automated Testing · CI/CD · Docker · Git · GitHub

SELECTED ENGINEERING PROJECTS

Habitto - Local-First Habit & Routine Tracker

Flutter · Dart · Hive · CI/CD · Automated Testing

- Built and shipped a bilingual Android habit-tracking product from architecture through release.
- Designed a fully on-device, account-free architecture using Hive, with scheduling across five recurrence models.
- Implemented automated testing and CI/CD workflows supporting repeatable Android releases.

Todoist Gemini Bridge - MCP & Automation Infrastructure

Python · MCP · FastMCP · FastAPI · Pydantic · OAuth 2.0 · Docker · Pytest

- Built an MCP server that lets AI assistants create, query, and complete Todoist tasks through validated tools.
- Designed the integration across JSON-RPC, FastMCP, REST/OAuth 2.0, and the Todoist API with strict Pydantic validation.
- Containerized the system with Docker and built a 65-test Pytest suite covering core tools, validation, parsing, project resolution, and API behavior.

ZombieBarricadeIdle - In Development

Unity · C# · 3D · Idle Systems

- Developing a 3D low-poly idle game in Unity and C#.

PROFESSIONAL EXPERIENCE

Sales Representative - Zuhall Müzik

May 2024 - Nov 2025 · Balıkesir, Türkiye

- Provided product guidance and sales support across professional and consumer music equipment.
- Worked with specialized audio products including audio interfaces, mixers, sound systems, studio equipment, and related music technology.
- Assisted customers in selecting equipment based on technical requirements, intended use, and budget.

Game Developer - Shawty Games

Jul 2023 - Feb 2024 · Remote

- Progressed from Game Developer Intern to Game Developer.
- Contributed to four mobile game projects using Unity and C# as part of the development team.
- Worked on gameplay implementation, testing, debugging, and general game development; contributed to projects released on Google Play for the U.S. market.

Customer Interaction Specialist → Customer Service Supervisor - Teleperformance

Sep 2020 - Sep 2022 · Balıkesir, Türkiye

- Progressed from Customer Interaction Specialist to Customer Service Supervisor, gaining experience in team coordination, communication, escalations, and operational problem solving.

EDUCATION & ADDITIONAL INFORMATION

Education B.Sc. in Computer Engineering - Balıkesir University | 2017 - 2023

Additional Languages: Turkish (Native), English (B2) · Military Service: Completed
